## **DETAILED ACTION**

### ***Claim Objections***

1. Claim 8 is objected to because of the following informalities: In line 8, the word analysis is misspelled. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 101***

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 8, 11, and 12 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 8 appears to be to an abstract idea rather than a practical application of the idea. Claim 8 does not result in a physical transformation nor does it appear to provide a useful, concrete and tangible result. Specifically, it does not appear to produce a tangible result because merely predicting an initial time is nothing more than a thought or idea in the mind of a person doing the predicting. Thus, there is no tangible result. Therefore, claim 8 appears non-statutory.

### ***Allowable Subject Matter***

4. Claims 1-7, 9, and 10 are allowed. The following is an examiner's statement of reasons for allowance: The prior art does not disclose or suggest analyzing QC measurements and based on those measurements storing selected samples of FE measurements in permanent memory as specifically called for in the claimed combination of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Response to Arguments***

5. Applicant's arguments, filed 9/11/06, with respect to claims 1-12 have been fully considered and are persuasive. The rejection of claims 1-12 over the prior art of record has been withdrawn. However, a new grounds of rejection is made over 101. Thus, this action is made non-final.

### ***Conclusion***

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nicole Coy whose telephone number is 571-272-5405. The examiner can normally be reached on M-F 7:30-5:00, 1st F off.
